SILVER SINE BIO TECH

AN ISO 9001:2015 CERTIFIED COMPANY

• STATEMENT OF COMMITMENTS

- To Manufacture high quality products with continuous improvement by innovation and commitment to health, safety and environment.
- To ensure constant efforts to maintain excellent employee welfare and high levels of "Business Ethics" in Quality and Services to Customers and associates.
- To upgrade and effectively utilize operational resources to realize performance excellence.
- To expand product Portfolio on an on going basis to ensure significant business growth.
- To Constantly explore and implement appropriate expansion plans for our national and international Business.
- To be a Global Player in the area of Agrochemicals and Other Industrial Speciality Chemicals.

• HEALTH, SAFETY AND ENVIRONMENT

Silver Sine Bio Tech is committed to maintain high standards of Health, Safety and Environment in all their Operational areas. In line with this Philosophy Silver Sine Bio Tech ensures, through appropriate Facilities, that the Effluents Released are minimal: those released are treated through appropriate effluents treatment procedures-effective disposal of combustible effluents through incinerators equipped with Quenchers, Scrubbers and Standard Chimneys. All these Procedures are carried out as per norms/guidelines prescribed by pollution control board. In line with Silver Sine Bio Tech commitment to ensure employees health and safety the operators are provided with appropriate protective equipment like goggles, gloves, overalls, mask / respirators helmets etc. The operators also enjoy hygienic civic facilities including a "Change Room" provided with showers. Round the clock medical facility is available for all operators in addition to periodical medical check up.

AGRO CHEMICALS

RESEARCH & DEVELOPMENT

Since R & D is the base for all Innovative Research and Development in terms of not only absorbing technologies but also improving them to ensure optimal utility of existing infrastructure, India Pesticides Ltd., has created a separate R & D wing manned by Qualified and Dedicated Scientists duly supported with sophisticated laboratories. The R & D activity also has constant support from our experienced panel of consultants who are senior scientists from National Laboratories and other premier Research Institutes and some leading universities. Our R & D base is structured not only to improve existing technologies towards much safer and cost-effective Fungicides and Other Products.

Our Crop Protection Research Focuses on Developing a Range of Herbicides, Fungicides, Insecticides and crop enhancing Chemicals with Broad applicability. Our programs focused on innovation to increase yields, Quality, Protect Plants and improve resource efficiency in the field - by developing Products and Practices that reduce the Land, water and energy needed to Grow Crops. Product Safety and Environmental Considerations are also integral to our work.
